

An approximate solution for the one-dimensional optimum shift problem with Gaussian utility function and truncated Gaussian distribution

Kiitam, Andres Analysis and synthesis of complicated systems and circuits with the aid of computers 1989 / p. 11-18

Calculation of stochastic characteristics of digital-to-analog converter sine output signal spectrum

Bachverk, Aleksander Analysis and synthesis of complicated systems and circuits with the aid of computers 1989 / p. 19-26

Characteristics of output circuit with feedback containing transmission lines

Kängsep, Eiko Analysis and synthesis of complicated systems and circuits with the aid of computers 1989 / p. 27-46

A formal model for automated technological system

Kull, Arvo Analysis and synthesis of complicated systems and circuits with the aid of computers 1989 / p. 3-10

General characteristic model of linear time-invariant two-ports

Kängsep, Eiko Analysis and synthesis of complicated systems and circuits with the aid of computers 1989 / p. 47-52

Realisation of a serial correction procedure for the output signal of an electromagnetic flow transducer

Toomet, Madis Analysis and synthesis of complicated systems and circuits with the aid of computers 1989 / p. 59-67

Voltage ratio error estimation in ratio transformers

Jöers, Rein; Peterson, Jaak Analysis and synthesis of complicated systems and circuits with the aid of computers 1989 / p. 53-58
