

CuInSe₂ monograin growth in CuSe-Se liquid phase

Altosaar, Mare; Mellikov, Enn Japanese journal of applied physics 2000 / p. 65-66

Formation of CuInS₂ in spray pyrolysis as simulated by thermal analysis

Krunks, Malle; Leskelä, Tuula; Niinistö, Lauri Japanese journal of applied physics 2000 / p. 181-186

Recombination behaviour at the ultra-thin polypyrrole film/silicon interface investigated by in-situ pulsed photoluminescence

Intelmann, Carl Matthias; Hinrichs, Karsten; Sörtski, Vitali; Yang, Florent; Rappich, Jörg Japanese journal of applied physics 2008 / 2, p. 554-557
