

Extract of selenium-enriched yeast enhances growth and production parameters of Mammalian Cell Lines in serum-free suspension cultures

Voodla, Karoli; Rumvolt, Reet; Drews, Monika 14th International Biotechnology Symposium and Exhibition. Biotechnology for the Sustainability of Human Society : 14-18 September, Rimini, Italy 2010 2010 / p. P 1533

Medical colloids in design of mammalian serum-free media

Voodla, Karoli; **Rumvolt, Reet**; Aints, Alar; Drews, Monika International journal of emerging trends in pharmaceutical sciences 2014 / p. 1-4 : ill

The effect of extract of selenium-enriched yeast on growth of hybridoma and CHO cells

Voodla, Karoli; Hunt, Reet; Drews, Monika 21th Meeting of the European Society for Animal Cell Technology (ESACT) "Cellular Solutions for Clinical Challenges" : June 7-10, 2009, Dublin, Ireland 2009 / p. 387
