

Adenosine-derived non-phosphate antagonists for P2Y1 purinoreceptors

Sak, Katrin; Uri, A.; Enkvist, E.; Raidaru, G.; Subbi, J.; **Kelve, Merike**; Järv, Jaak Biochemical and biophysical research communications 2000 / p. 327-331

Only pyrimidino receptors are functionally expressed in mouse neuroblastoma cell lines

Sak, Katrin; Webb, T.E.; Samuel, Külli; **Kelve, Merike**; Järv, J. Mol. cell. biol. res. comm 1999 / p. 203-208
<https://www.sciencedirect.com/science/article/abs/pii/S1522472499901344>

Prolüini efekti kvantkeemiline modelleerimine peptiidide konformatsioonile

Sak, Katrin XXIII Eesti keemiapäevad : teaduskonverentsi ettekannete referaadid 1997 / lk. 126

Pyrimidinoreceptor potentiation by ATP in NG108-15 cells

Sak, Katrin; **Kelve, Merike**; Uri, A.; Järv, J. FEBS letters 1998 / p. 107-109

Quantum chemical modeling of the effect of proline residues on peptide conformation

Sak, Katrin 23rd Estonian Chemistry Days : abstracts of scientific conference 1997 / p. 137
