

Heat exchange in the devices of pulse burning

Mere, Harri; Dušenko, Veera Progress in Engineering Heat Transfer : proceedings of 3rd Baltic Heat Transfer Conference 1999 / p. 53-58

Heat transfer through a porous layer filled with near-critical medium

Kruus, Rein; Käär, Harri; Tiikma, Toomas Progress in Engineering Heat Transfer : proceedings of 3rd Baltic Heat Transfer Conference 1999 / p. 153-160

Low frequency sonic field influence to the heat transfer in combustion chamber

Tiikma, Toomas; Vrager, Allan Progress in Engineering Heat Transfer : proceedings of 3rd Baltic Heat Transfer Conference 1999 / p. 87-94

Temperature profile in tube wall by rapid water quenching

Ots, Arvo Progress in Engineering Heat Transfer : proceedings of 3rd Baltic Heat Transfer Conference 1999 / p. 699-706 : ill

The complex method for investigation of thermophysical properties of kraft recovery boiler fireside deposits

Tiikma, Toomas; Tran, Honghi Progress in Engineering Heat Transfer : proceedings of 3rd Baltic Heat Transfer Conference 1999 / p. 95-102
